

Our Agenda

Children

want to play where they are living and where they can find other children to play with. They need a variety of spaces, where use is not defined, where they can find stimulations and where they are able to modify their environment for to discover the world.

Playing

is a national and international children's right. It is a duty for all common powers: Politicians, Administrations, economy and not only the youth welfare service.

SpielLandschaftStadt

means to have the whole town as a playground. To develop playing facilities is a main duty for the urban planning.

Child-Friendliness

is possible and meanwhile a basic location factor. Children are experts for their own concerns. Participation of children, youth and parents in processes of planning building and maintenance and the professional accompaniment of participation projects is condition for the child-friendly town.

Our major tasks

The association SpielLandschaftStadt was founded in 1999 and it is a non profit organisation.

Its major task is building a child-friendly, family-friendly world. The duties are:

- to develop playgrounds and playing facilities,
- to accomplish processes of participation,
- further education
- public relations and documentation.

Cooperation partners are the Senator for work, women, health, youth and social welfare, the office for social welfare and non profit organisations.

The project „SpielRäume schaffen“ of the senator for youth and the german relief organisation Deutsches Kinderhilfswerk was assigned to SpielLandschaftStadt. It organises the project monitoring, the evaluation, the public relations and processes the financial aid for projects.

Our field of work

„SpielRäume schaffen“

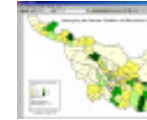

About 200 projects got financial aid within six years!

Participation and Children's Rights

Participation by Children and Youth in Items they are concerned

digital Informationsystem for playing facilities

with one click to information, facts, fotos and maps

Further Education

for parents, professionals and politicians

Migration

Further Education and Participation for Migrants

Growing up needs space

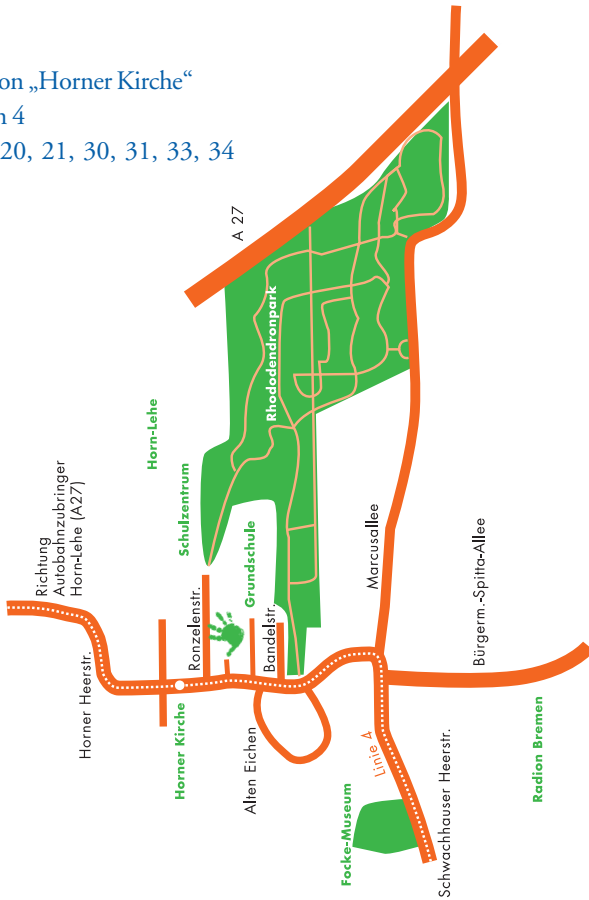

multiple use of public space

subnatural, without barriers, near home
